

BRAND GUIDELINES

About Us

Innovation is at the core of Exponential-e, and has been since our inception in 2002. We wholly own our super-fast Network, and our fusion of complementary technologies - a carrier-class Network and Cloud infrastructure means we can deliver enterprise applications at wire speed for a superior end-user experience.
 Our Cloud services do not transcend the public Internet. Instead, they reside on a customer's LAN, on the clean side of the firewall, and security and privacy concerns are negated.

Exponential-e has been awarded seven ISO accreditations as well as the highly coveted Cloud Security Alliance STAR.

We deliver scalable, dynamic and bespoke solutions. We have a UK based 24 / 7 x 365 service desk, and we are renowned for our responsiveness and our customer

Our logo

Our new brand reflects our continual growth, innovation and aim to be better than our competition. Refreshing our logo enables us to stand out amongst the crowd, make a statement and be noticed.

With a drive towards 3.0 the new brand is reflective of the transition of the business and our move towards world-class services, building upon our Network foundations and expanding from our UK focus.

The new logo is bold, bright and impactful. The colours represent our existing service catalogue and will be adapted as this expands. Operationally it is more functional and will enable us to do more to showcase Exponential-e and all it has to offer.

In the future we hope that the 'e' will become iconic by itself, automatically associated with Exponential-e by a quick glance of the eye, empowering our digital activity and acting as a standalone icon.

Monochromatic logotype

Colour is an important element of our visual identity.

When used effectively, it helps to create the character of the organisation and makes the communications more memorable. Colours are representitive to each of our services.

These colours can be used to help differentiate e.g. through colour coding or simply as a design element.

Each colour is shown opposite with a Pantone reference and CMYK values for printing, RGB values for on-screen applications and HTML values for web use.

Our colour palette

Exponential-e BLUE

Pantone® 647C C100 M58 Y12 K31 R35 G97 B146 HTML #236192

Logo construction and exclusion zone

To ensure brand consistency and legibility, some simple rules have been devised when applying the logo.

These rules should be applied wherever possible on all of our applications.

The exclusion zone

The logo must be surrounded by an exclusion zone.

This is measured using the letter 'x' from the exponential-e typeface - as normal and rotate 90° to form a square.

This zone allows the logo to stand apart from other images, graphics and text, allowing it to remain clearly visible and prominent at all times.

Do not place a design element within the logo exclusion zone.

The Aller font family is an exceptional typeface design that satisfies a wide range of uses. The design of each letterform is clean and without fuss, making Aller a contemporary design truly fit for the 21st century. Three Roman styles ranging from light to bold, with matching italics, ensure the font family is versatile - and versatility and accessibility are some of the factors the company offers.

Typography

Aller

Aller Regular abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ 123456789

Aller Italic abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ 123456789

Aller Bold

Typography

Calibri

calibri Regular abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ 123456789

Calibri Italic abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ 123456789

Calibri Bold abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ 123456789

Calibri Bold Italic *abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ 123456789*

calibri light abcdefghijklmnopqrstuvwxyz

ABCDEFGHIJKLMNOPQRSTUVWXYZ

123456789

Secondary Typeface

Calibri is a modern sans serif family with subtle roundings on stems and corners. It features real italics, small caps, and multiple numeral sets. Its proportions allow high impact in tightly set lines of big and small text alike. Calibri's many curves and the new rasteriser team up in bigger sizes to reveal a warm and soft character. Calibri was tuned for ClearType rendering environment.
